## Message from the President

Greetings to all,

We are in the Lenten Season and that is a time to reflect upon a lot that we do and are as Irish and Catholic. We all too often say all of the right things, but fall short of being the people we would like to and should be. I know that I am sometimes not the person that I want to be, and it is very hard to admit that, especially to myself, since I know that I will judge myself more harshly than I would judge others.

So, time for reflection. What we do and how we see ourselves is a very complicated issue and I am not sure that I can define or explain the duality of humanity and self in a few short sentences. God may be able to, but I cannot, and that is one of the things that we should reflect upon during this time of our lives. God is here for us and we need to remember that we can ask for help and guidance in our lives, not just during times of stress, but at all times. We need to also remember that help is not automatic, but that it is also based upon what we do. "God helps those that help themselves," may not be axiomatic, but it is a part of our free will. We need to try, but part of trying can be asking for help, whether we need it or whether we are actually asking for support.

I just re-read my last paragraph and I might be waxing a little philosophical, but Easter is time for that, to think about our Faith and how we use it in our lives. I hope that all of us have a blessed Easter and that we all remember that "He is Risen".

In our Motto,

Patrick ♣

## Veterans Note

### Education Bill and the Star Act

The US House of Representatives recently passed a bill that would allow National Guard and Reservists some additional parity with our Active-Duty comrades. The *Guard and Reserve GI Bill Parity Act of 2021* would count any days served on active duty towards the accrual of GI Bill benefits for education. Currently the requirement is that you must serve at least 90 consecutive days to gain partial GI Bill benefits. This bill will make it easier for Guards and Reservists to meet the criteria and therefore allow a greater access to higher education. If you care to track it, it is HR 1836. It still needs to get through the Senate and then be signed by the President.

The Star Act (S. 344 and HR 1282) is an Act that would make it easier for veterans to attain the benefits they have earned. Currently, under the law, if you do not reach 20 years of service and are claiming a “combat related illness” (not a wound), your benefits are subject to an offset.

This means that although you developed an illness as a result of service to your country, you are not entitled to the full services of the VA. This law was written back in the 1980’s after a rash of false and suspect claims and,
